Complete Site setup & Management, onsite Supervisors and total range of Equipment for hire and sale

Level 1 Basic Traffic Controller (TC)

This one day course promotes safe working practices, standards and operating procedures at roadwork sites.

This is the NZ Transport Agency (NZTA) Level 1 Basic Traffic Controller (TC), which covers the standards and operating procedures required by the Code of Practice for Temporary Traffic Management (COP/TTM).

Appropriately trained and qualified staff must be available to carry out temporary traffic management duties in compliance with the NZTA COP/TTM and Local Roads supplement on all worksites.

This course is the pre-requisite for entry requirement for people wanting further training to Level 1 Site Traffic Management Supervisor (STMS) standard of the Code of Practice for Temporary Traffic Management.

Topics include

- Health and safety principles
- Principles of temporary traffic management
- Component parts and layout of a worksite
- Setting up and worksite rules
- Authorised sign use
- Temporary traffic management equipment
- Manual traffic control
- Pedestrians and cyclists
- Static operations
- Mobile and semi static maintenance/inspection operations
- Night time protection
- Low Volume Roads
- Implications of Local Roads supplement

On completion of this course participants will

- Assist the STMS in the setting up of roadwork sites in accordance with approved Traffic Management Plans
- Develop a consistent approach to traffic control
- Analyse Traffic Management Plans in relation to various roading situations
- Apply exercises in the planning and setting up of roadwork sites to actual roading situations
- Understand the requirements for sign selection, placement, safe operating procedures and worksite protection for Level 1 roads
- Understand and apply the standards for Local Roads

Who should attend

Any person that carries out work on or within the boundaries of a road. These include NZTA State Highways and Local Authority roads.
